

Friday 26th January 2024

Dear Parent/Carer

We have the exciting opportunity for your child to attend an A.I.M. High Maths Day at Kingsholm Primary School. Your child has been chosen to work with Hazel Large and will spend the day on **Thursday 1st February** taking part in a Maths exploration day.

"Hazel's aim is to 'bring maths to life' for students and regularly runs a range of maths experiences for schools.

Her AIM High days involve a range of age appropriate activities. The focus is predominately on problem solving and using and applying mathematics with a challenging but fun road show of activities. The day usually starts with a little bit of 'Maths Magic' but students also get the opportunity to work collaboratively with game playing and paper folding activities. Throughout the day there are opportunities for students to think, reason and communicate mathematically."

The day will start at 9.30am and your child will return to school at 3.15pm, ready for collection at 3.30pm, as usual.

Your child will be driven to Kingsholm Primary School by a member of staff and they will be accompanied by a member of St Paul's staff throughout the day, before driving back to school.

Please ensure that your child has a nut free packed lunch with them, as we will have lunch at Kingsholm Primary with our author and the other children attending the session.

We have attached a flyer so you can learn more about the author they will be spending the day with.

.

Please do not hesitate to ask any questions,

Many thanks,

Mrs Morrison

Deputy Head
